and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am a single female and the reason I have this phone is for emergencies! I have had pay decreases over the last 2 years and am working a part time job in addition to the 45 hours at my full time job just to make ends meet. Please do not increase the amount of the tracfone for those of us that have it because we don't use a wireless phone like most other people. This is the only way that I can have the safety and security of reaching someone when I might need them most.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Julia Tollgaard
